**FAX this completed form to 1-833-546-1507**  
**OR Mail request to: Pharmacy Services Prior Authorization Dept.**  
**5 River Park Place East, Suite 210 | Fresno, CA 93720**

Call 1-866-399-0928 to request a 72-hour supply of medication.  
Pharmacy Services will respond via fax or phone within 24 hours of receipt of all necessary information, expect during weekends and holidays. For immediate response on weekends and holidays, NurseWise will answer your call.

**Antipsychotic (< 6 years of age)**  
**180-day Maximum Approval Note: Form must be completed in full.**

---

**Review Criteria**

- The most current antipsychotic prior authorization request form is required for review.
- All relevant sections of the antipsychotic prior authorization form must be complete.
- To calculate the BMI and BMI percentile, the Centers for Disease Control and Prevention (CDC) provides a **BMI Calculator for Children and Teens** that may be accessed at the following link:  
<https://www.cdc.gov/healthyweight/bmi/calculator.html>
- The evaluation and progress notes must document target symptoms and behaviors.
- Continuation requests require documentation to demonstrate monitoring for movement disorders. Find screening tools (AIMS, DISCUS) at: <http://floridabhcenter.org/assessment-scales.html>
- Continuation requests require the attachment of the most recent metabolic monitoring labs to include
  - Fasting glucose and fasting lipids.

**Clinical Notes**

- Psychosocial treatments should precede the use of psychotherapeutic medications and should continue if medications are prescribed.
- Risks and benefits should be carefully considered before prescribing an antipsychotic.
- Prior to starting an antipsychotic medication, baseline measures should be obtained for weight, height, BMI, blood pressure, fasting glucose and fasting lipids.
- Assessments obtained at baseline should be repeated at three months and at least annually to assure safety and efficacy with the use of antipsychotic treatment.
- Fasting glucose and lipids may need to be assessed every six months to provide optimal monitoring in young children.
- Assessment for movement disorders should be performed during the initial titration, at three months and annually.

**Florida Medicaid Clinical Guidelines**

Access the following guidelines at <http://floridabhcenter.org/index.html>:

- *Principles of Practice Regarding the Use of Psychotropic Medication in Children Under Age 6*
- *Florida Medicaid Best Practice Psychotherapeutic Medication Guidelines for Children and Adolescents*
