

Free consultation and evaluation

Becoming a member of the PaperFree Florida community is simple!

1. Log on to our website at www.paperfreeflorida.org
2. Click on the Request a Free Consultation button
3. Answer a few simple questions about your practice and needs
4. Click Submit

Within days of completing the request form, one of our business development team members will contact you to set up an appointment to meet with you face-to-face. During this meeting we will discuss your practice's needs and match our service offerings where appropriate. The initial consultation and evaluation are free. We will review our pricing structure and business model during our consult call.

PaperFree Florida is your advocate and resource, ready to provide guidance and support to your practice throughout the entire EHR implementation process, from the selection of software through achievement of Meaningful Use (even if you already have a system).

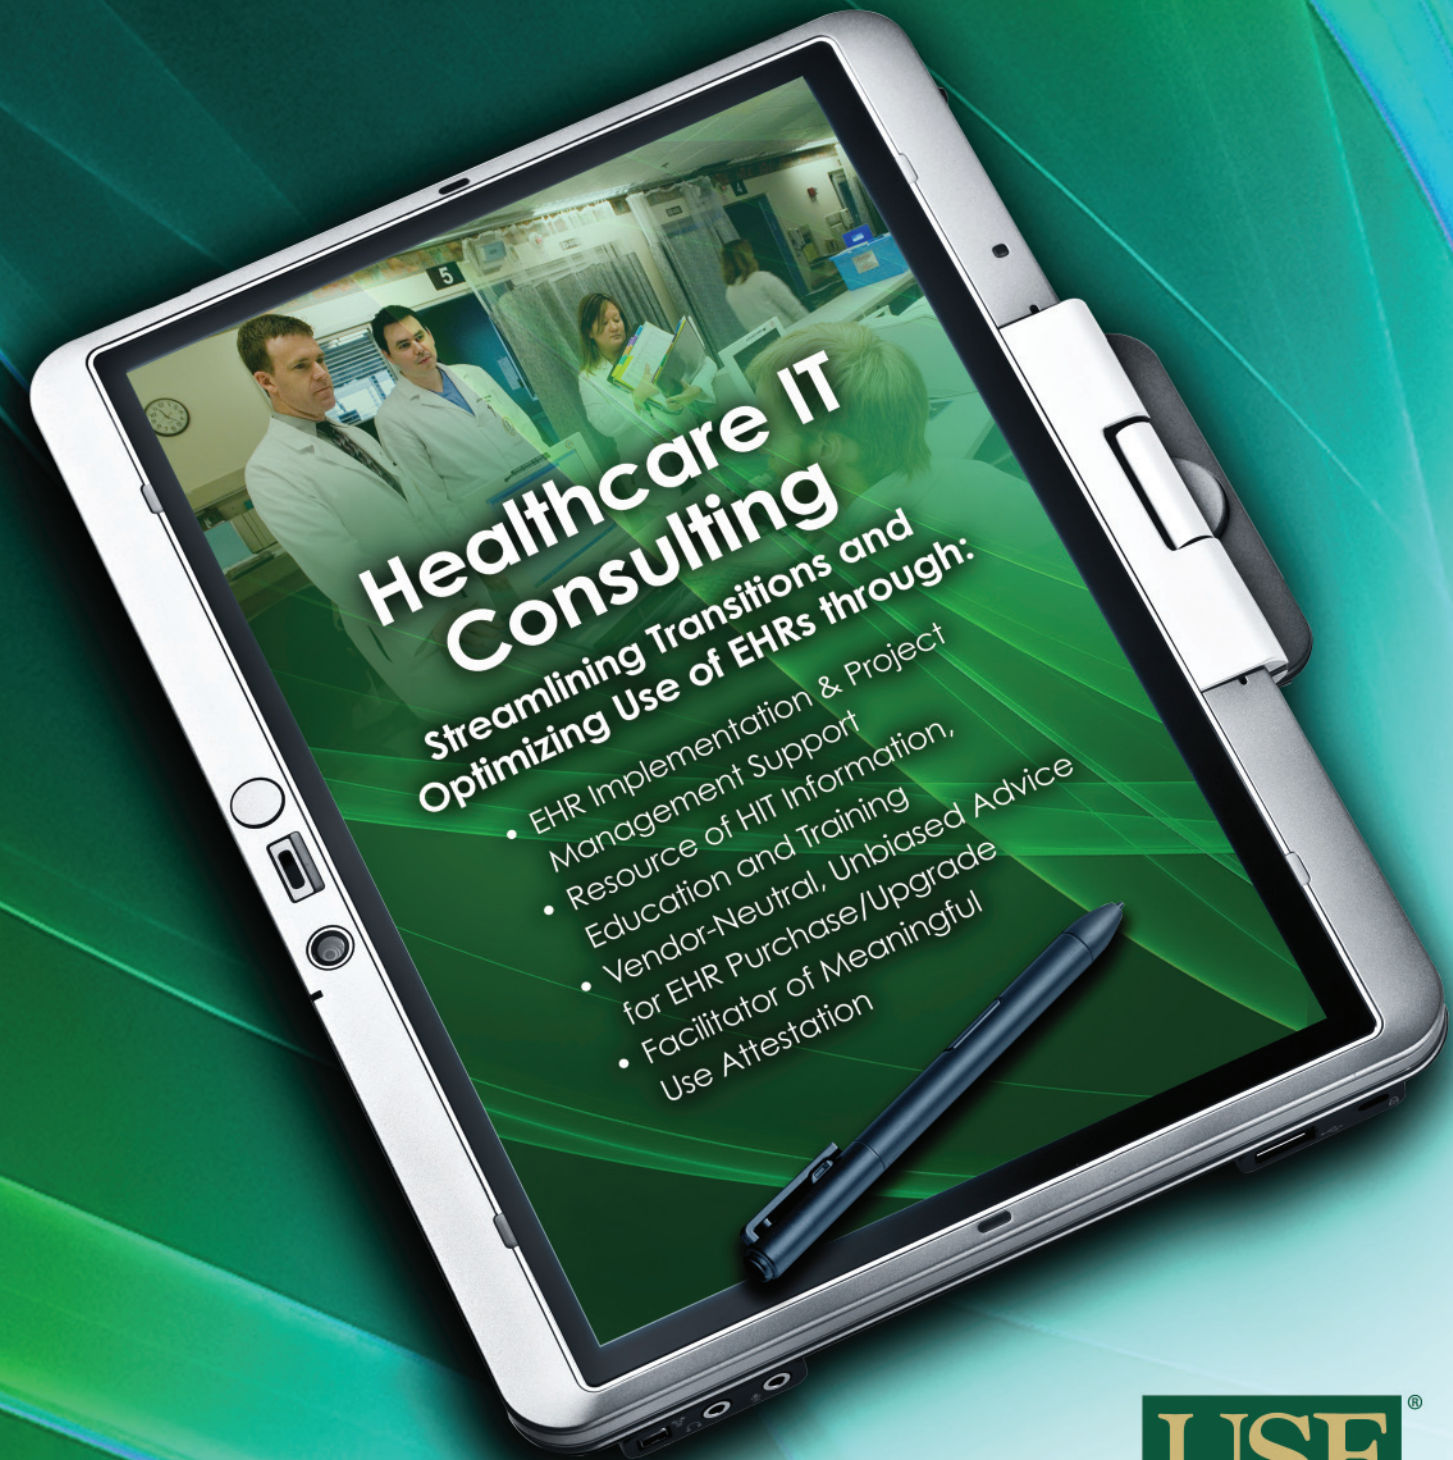

Visit us at www.PaperFreeFlorida.org for additional information. You can also call us at (813) 974-6641, and we will have one of our business development team members contact you to discuss your practice needs and answer your questions.

PaperFree Florida

PaperFree Florida

PaperFree Florida is a grant funded Health Information Technology Regional Extension Centers (REC). Our mission is to demonstrate the long-term, ongoing value of outreach, education, and competent consulting assistance to facilitate the adoption and meaningful use of health information technology to health care providers in the area.

Electronic Health Ambassadors

Electronic Health Ambassadors (EHAs) are PaperFree Florida's health information technology consultants. Their purpose is to provide you with advice, education, and guidance to support and accelerate your migration to meaningful use of certified EHR technology.

Meaningful Use

“Meaningful Use” (MU) is the successful use of an Electronic Health Record (EHR) by an Eligible Professional (EP) to meet requirements as specified by the Centers for Medicaid and Medicare Services (CMS). Meaningful Use must be met to qualify for EHR financial incentives from CMS.

Medicare Incentives

Adopt	On or before 2011	2012	2013	2014	2015
2011	\$18,000				
2012	\$12,000	\$18,000

2021						\$8,500
TOTAL	\$63,750	\$63,750	\$63,750	\$63,750	\$63,750	\$63,750

PaperFree Florida Helping Physicians Achieve Meaningful EHR Use

PaperFree Florida

Need an EHR?

Has your practice been confronted with any of the following questions for which you need advice or assistance?

- What is an EHR?
- How do I select an EHR?
- Which vendor and software is best for my type of practice?
- Is the EHR that my colleague has a good choice for me?
- How do I get CMS incentive money for using an EHR?
- Where do I start?

If you do not already have an EHR, we can assist with:

- Explaining the purpose, function, and benefits of implementing electronic health technology
- Selecting an appropriate software and vendor for your practice
- Educating your practice on project management and the EHR implementation process
- Advising on key topics and “watch-outs” to address with your vendor
- Guidance on how to manage the people that are part of your implementation process

Already have an EHR?

PaperFree Florida will assist practices that have an EHR with:

- Identifying issues and defining solutions to ensure successful and efficient use of your system
- Switching from one EHR to another EHR
- Upgrading your EHR to a certified version
- Registering for Meaningful Use incentives
- Education on the Meaningful Use stages, metric, and measures
- Utilizing your certified EHR's Meaningful Use dashboards and scorecards
- Guidance on the Meaningful Use registration and attestation process
- Assist with components of Meaningful Use
