and Targeted Case Management (TCM)

# EIS and TCM Services Implementation

Sunshine Health is responsible for these services based on the SSMC contract rollout below:

## Phase 1:

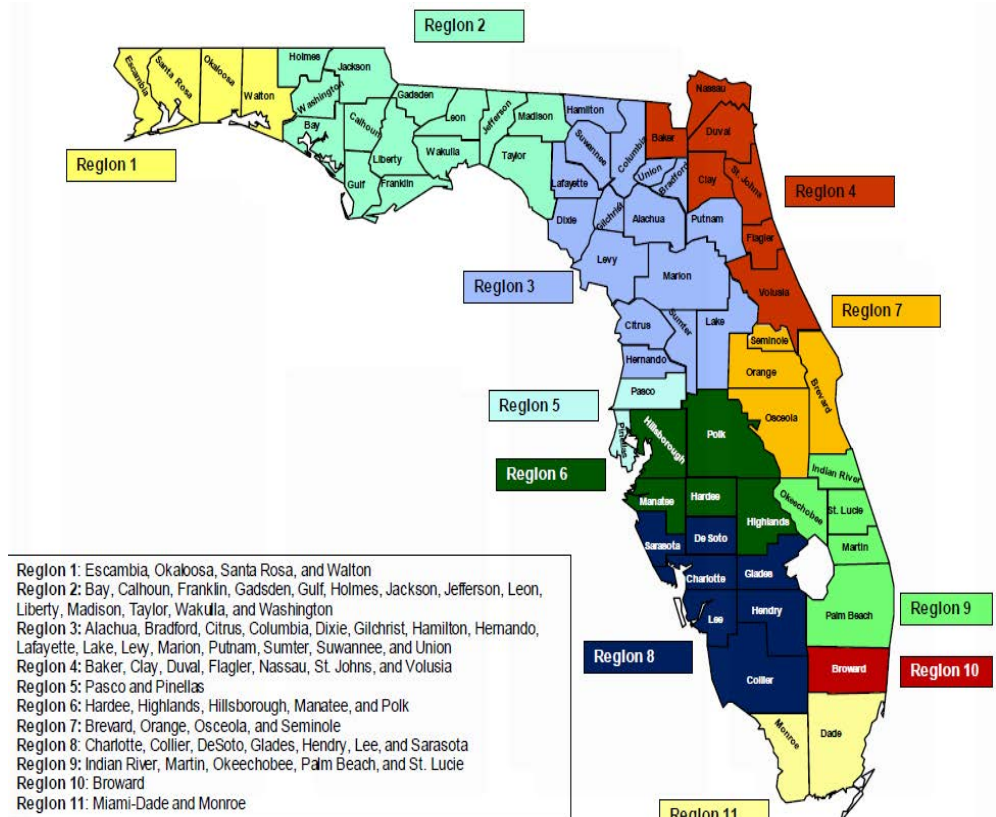

December 1, 2018  
Regions 9, 10 and 11

## Phase 2:

January 1, 2019  
Regions 5, 6, 7 and 8

## Phase 3:

February 1, 2019  
Regions 1, 2, 3 and 4

# Early Intervention Services

---

12/3/2018

# Early Intervention Services (EIS)

- This service was added as a managed care covered benefit to facilitate an integrated health care delivery to support coordination and payment for all of the services a child needs.
- Sunshine Health recognizes that there are federal requirements to have:
  - Referral to screening, evaluation, and Individualized Family Support Plan (IFSP) developed within 45 days
  - Services start no later than 30 days from the date of the family/caregiver consent on the IFSP

# Contracting with EIS Providers

- Sunshine Health is in the process of contracting with the 15 local Early Steps provider groups who provide EIS services.
- We acknowledge that the Department of Health provides an Infant and Toddler Developmental Specialist (ITDS) certificate for providers who become specialized in children with special needs and their families under the Early Steps Program.
- Confirmation of this certificate will be obtained upon the Sunshine Health credentialing process and ongoing.
- Sunshine Health will pay the Medicaid fee for service rates for EIS services.

# EIS Provider Billing

- Providers who are not employees of the Early Step agency, who are certified to perform EIS services, and have an arrangement with the Early Steps program to provide services and wish to bill separately, can bill Sunshine Health under their individual tax identification number and Medicaid provider number.
- EIS providers who are employees of an Early Step agency will bill Sunshine Health under the Early Step's tax identification number and the Early Step's Medicaid provider number

# Continuity of Care for New Members sunshine health

- If Sunshine Health does not have contracts in place with all EIS certified providers when a region is implemented, we will continue to pay the EIS providers without an authorization.
- The continuity of care (COC) period for these services are the same for other services:
  - 60 days for MMA members
  - 90 days for Child Welfare members
- As part of COC, Sunshine Health will pay EIS providers at the rate they were previously receiving for up to 30 days.

# The IFSP

- The Individualized Family Support Plan (IFSP) process begins at the time of referral, where the family's identified resources, priorities, concerns, interests and daily activities are woven together throughout the process and is developed by a multidisciplinary team.
- A Plan of Care must be developed and updated every six months (or upon a change in services).

# Referrals for IFSP

- Sunshine Health Case Management staff may be asked to participate in the multidisciplinary team meetings where the IFSP is developed in order to facilitate coordination of non-EIS services with participating providers or to provide education on available benefits that may support the child's comprehensive needs.
- If Sunshine Health receives a request to attend an IFSP, the request should be sent to this dedicated email box managed by staff in order capture all requests in a timely manner. The email is:  
[Sun\\_IFSP@centene.com](mailto:Sun_IFSP@centene.com)
