for Early Intervention Services (EIS)
and Targeted Case Management (TCM)
Services
for Children Ages 0 to 3**

EIS and TCM Services Implementation

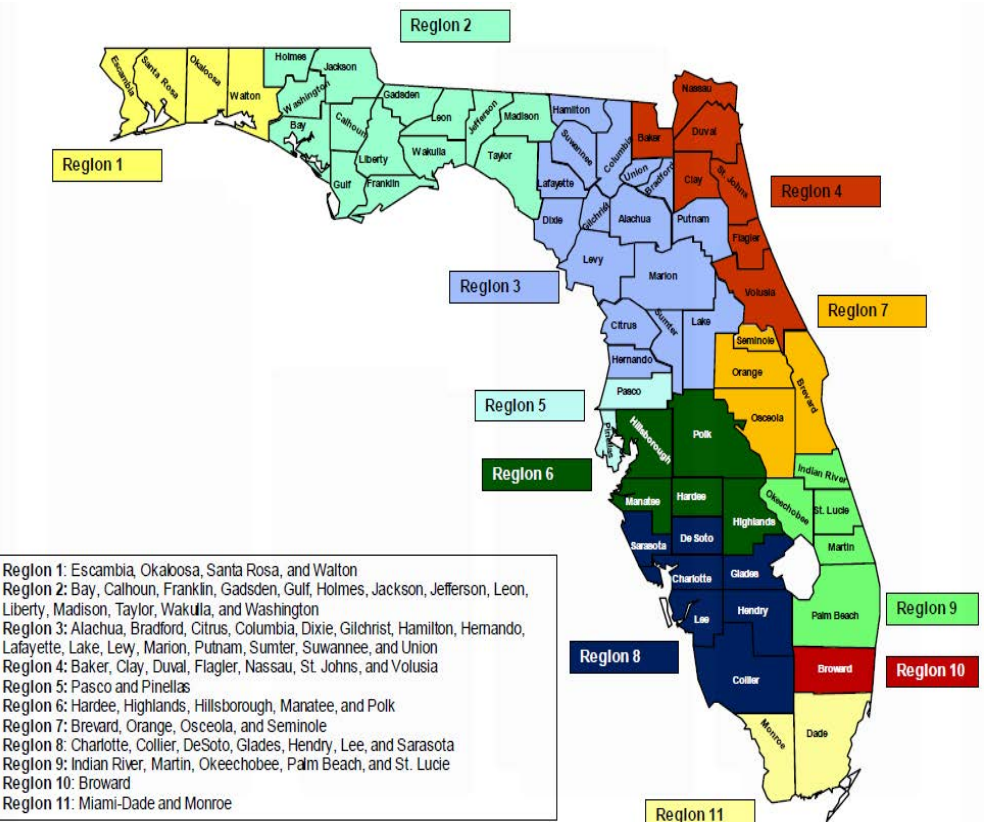

Sunshine Health is responsible for these services based on the SSMC contract rollout below:

Phase 1:
December 1, 2018
Regions 9, 10 and 11

Phase 2:
January 1, 2019
Regions 5, 6, 7 and 8

Phase 3:
February 1, 2019
Regions 1, 2, 3 and 4

Early Intervention Services

1/15/2019

Early Intervention Services (EIS)

- This service was added as a managed care covered benefit to facilitate an integrated health care delivery to support coordination and payment for all of the services a child needs.
- Sunshine Health recognizes that there are federal requirements to have:
 - Referral to screening, evaluation, and Individualized Family Support Plan (IFSP) developed within 45 days
 - Services start no later than 30 days from the date of the family/caregiver consent on the IFSP

Contracting with EIS Providers

- Sunshine Health is in the process of contracting with the 15 local Early Steps provider groups who provide EIS services. There will be no requirement for external providers to contract with Sunshine Health.
- We acknowledge that the Department of Health provides an Infant and Toddler Developmental Specialist (ITDS) certificate for providers who become specialized in children with special needs and their families under the Early Steps Program.
- Confirmation of this certificate will be obtained upon the Sunshine Health credentialing process and ongoing.
- Sunshine Health will pay the Medicaid fee for service rates for EIS services.

EIS Provider Billing

- Providers who are not employees of the Early Step agency, who are certified to perform EIS services, and have an arrangement with the Early Steps program to provide services can bill Sunshine Health under their individual tax identification number (TIN) and individual national provider identifier number (NPI).
- EIS providers who are employees of an Early Step agency will bill Sunshine Health under the Early Step's tax identification number (TIN) and the Early Step's national provider identifier number (NPI).

Continuity of Care for New Members

- For new members to Sunshine Health, we will pay for any previously prior authorized ongoing course of treatment, with any provider, including a provider who is not participating with Sunshine Health.
 - This includes Early Intervention Services.
- No Single Case Agreement (SCA) will be required.
- The continuity of care (COC) period for these services are the same for other services:
 - 60 days for MMA members
 - 90 days for Child Welfare members
- As part of COC, Sunshine Health will pay EIS providers at the rate they were previously receiving for up to 30 days.

The IFSP

- The Individualized Family Support Plan (IFSP) process begins at the time of referral, where the family's identified resources, priorities, concerns, interests and daily activities are woven together throughout the process and is developed by a multidisciplinary team.
- A Plan of Care must be developed and updated every six months (or upon a change in services).
- Sunshine Health Case Management staff may participate in the multidisciplinary team meetings where the IFSP is developed to assist with any additional clinical needs or coordination of care.
- IFSP Care Plans and IFSP meeting invites should be sent to:
Sun_IFSP@Centene.com
