2015 PROVIDER TOOLKIT
Understanding the Centers for Medicare and Medicaid (CMS) Stars Rating System

What is CMS Quality Star Ratings program?
CMS evaluates health insurance plans and issues star ratings each year; these ratings may change from year to year. The CMS plans rating uses quality measurements that are widely recognized within the health care and health insurance industry to provide an objective method for evaluating health plan quality. The overall plan rating combines scores for the types of services the health plan offers. CMS compiles its overall score for quality of services based on measures such as:

- How the health plan helps members stay healthy through preventive screenings, test and vaccines
- How often the members receive preventive screenings, tests and vaccines
- How the health plan helps members manage chronic conditions
- Scores of member satisfaction with the health plan
- How often members filed a complaint against the health plan
- How well the health plan handles calls from members

In addition, because the health plan offers prescription drug coverage, CMS also evaluates the health plans for the quality of services covered such as:

- Drug plan customer service
- Drug plan member complaints and Medicare audit findings
- Member experience with drug plan
- Drug pricing and patient safety

What Are CMS Star Ratings?
CMS developed a set of Quality Performance Ratings for Health Plans that includes specific Clinical, Member Perceptions, and Operational measures. The Quality Performance Ratings for 2015 services include 47 measures derived from six (6) data sources. Percentile performance is converted to Star Assignments based on CMS specifications as 1 – 5 stars, where 5 stars indicate higher performance. This rating system applies to all Medicare Advantage (MA) lines of business: Health Maintenance Organization (HMO), Preferred Provider Organization (PPO), Private Fee-for-Service (PFSS). In addition, the ratings are posted on the CMS consumer website, www.medicare.gov, to give beneficiaries help in choosing among the MA plans offered in their area.

The methodology used by CMS is subject to change and final guidelines are released during the fall each year. This methodology was developed to:

- Aid consumer choice among plans on Medicare.gov and strengthen beneficiary protections
- Strengthen CMS’ ability to distinguish stronger health plans for participation in Medicare Parts C and D
- Penalize consistently poor performing health plans

Understanding the Centers for Medicare and Medicaid Stars Rating System...cont

Utilize the attached “Physician Guidance for a Quick Health Check” to ensure CMS’ expectations are met with regard to care for Medicare beneficiaries.

What are the Benefits?
The value of improving performance is well worth the investment for the health plan, its members and the provider community.

<table>
<thead>
<tr>
<th>Benefits to Members</th>
<th>Benefits to Providers</th>
<th>Benefits to the health plan</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Member receives quality care that leads to positive health outcome</td>
<td>• Improved quality of care and health outcome</td>
<td>• Improved quality of care and health outcome</td>

<tr>
<td>• Early detection of disease and health care that meets their individual needs</td>
<td>• Greater focus on preventive medicine and early disease detection</td>
<td>• Key component in financing health care benefits for MA plan enrollees</td>
</tr>
</tbody>
</table>

Tips for Providers – What you can do
• Continue to encourage patients to obtain preventive screenings annually or when recommended
• Create office practices to identify all gaps in care at the time of their appointment
• Submit complete and correct encounters/claims with appropriate codes and properly document medical chart for all members
• Review the gap in care files listing members with open gaps that is provided by your health plan at www.SunshineHealth.com/for-providers/
1. Have you had any of the following problems with your work or regular activities because of your physical health? (HOS) Circle response

<table>

<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

5. During the past four weeks, has pain stopped you from doing things you want to do?

   Please rate on a scale of 1 to 5 with 5 being the worst. (HOS)

   Physician Guidance - Complete pain screening using the “Pain Assessment” section in the attached “Care for Older Adults Assessment Form”. Identify/Document interventions.
6. Are you able to refill your prescription before your current supply depletes? Do you have difficulty remembering to take your prescriptions as prescribed?

7. Have you received a pneumonia immunization or vaccine? If no, why not? Would you like to receive one?

8. When did you last receive your flu shot? If not in the last year, why? Would you like to receive one?

9. WOMEN – Have you ever had a bone density test to check for osteoporosis? If no, why? (HOS) Physician Guidance – Order bone density test and encourage patient to comply

10. Are you pleased with the amount of time your doctor talks to you and how he or she explains your health care needs? (CAHPS) Physician Guidance – Consider options to improve communication

11. Do you think you can get care you need without delay? (CAHPS) Physician Guidance – Determine how or why patient perceives difficulty in getting timely care. Discuss realistic expectations for obtaining an appointment. Differentiate between getting appointments with the primary care physician versus specialists offices. Help the patient understand how to navigate the process better to receive timely care. Also look for areas to improve office procedures, if determined to be a problem.

12. Are you pleased with the quality of your health care? Please rate on a scale of 1 to 10 with 10 being the most pleased.

Optometrist or Ophthalmologist: __________________________

Last Bone Density Test (females > 67 yrs.): ______  
Date: ______  
Is member using osteoporosis Rx? Yes No

Last Mammogram (females 50-74 yrs.): ______  
Date: ______  
Has patient had 2 unilateral mastectomies or a bilateral mastectomy? Yes No

Bilateral mastectomy date: ______  Right unilateral mastectomy date: ______  Left unilateral mastectomy date: ______

**HEALTH OUTCOME SURVEY (WWW.HOSONLINE.ORG/) RELATED EVALUATIONS, DISCUSSIONS, AND DOCUMENTATION AS APPLICABLE FOR ALL MEMBERS, REFER TO “PHYSICIANS GUIDANCE FOR MEMBER QUICK HEALTH CHECK” ON PREVIOUS PAGES.**

(COMPLETE AS APPLICABLE FOR ALL MEMBERS)

- Level of physical activity and recommendations (i.e., maintain, start, increase, or otherwise modify)
- Bladder control, as well as related management and treatment plans
- Emotional or mental health concerns, including interference with activities of daily living (ADLs) and antidepressant medication mgmt.
- Risk for falls, problems with walking or balance
- Adherence to medication regimen as ordered by practitioner
- Tobacco use and cessation recommendations
- Flu and pneumonia vaccination

**COLORECTAL CANCER SCREENING (COMPLETE FOR MEMBERS AGED 50-75)**

- Annual guaiac (gFOBT) or immunochemical (iFOBT)  
  Date: _________
- Flexible sigmoidoscopy within the last five years  
  Date: _________
- Colonoscopy within the last ten years  
  Date: _________
- The patient has a colon cancer diagnosis  
  Date of Initial Diagnosis: _________
- The patient has had a total colectomy  
  Date of Initial Surgery: _________

**DIABETIC MEMBER ONLY (COMPLETE FOR MEMBERS AGE < 75 YEARS)**

Most recent HbA1c Result: ___________  
Date of Test: _________  
Medications: ___________________________

Most recent LDL-C Result: ___________  
Date of Test: _________  
Statin: ___________________________

Urine Microalbumin Test Date: _________  
Urine Macroalbumin Test result: _________

Annual Retinal Eye Exam Date: _________  
No Retinopathy

Optometrist or Ophthalmologist: __________________________

**OTHER CHRONIC CONDITION MANAGEMENT (COMPLETE AS APPLICABLE)**

Does the Patient have:

- Cardiovascular diagnosis? Yes No  
  Most recent LDL-C result: ___________  
  Date: _________
- Rheumatoid arthritis? Yes No  
  DMARD prescribed? Yes No
- ACE-I/ARB: ___________________________

### FUNCTIONAL ASSESSMENT TOTAL SCORE: ________

Sum the scores for each item. Lower score indicates increased disability. If used to measure improvement, changes of more than two points reflect a probable genuine change. Change on one item from full dependent to independent is also likely to be reliable.

**ADVANCE CARE PLANNING**

Indicate with a “X” for YES (Y) or NO (N)

Date Advance Care Planning materials offered & discussed: ____/____/____  Living Will (Y) ____ (N) ____

Member Refusal (Y) ____ (N) ____

Member previously executed an advance care plan (Y) ____ (N) ____ (document in comments)
